Innoplus

Create stunningly accurate bathroom designs.

How it helps you

DESIGN MADE EASY

Design beautiful bathrooms in three easy-to-follow steps that you can master in a few days. With a host of pre-designed rooms and automated tasks, such as tiling an entire room in seconds, you can create a new bathroom design in just 15 minutes. Responding to changes can be done as you go, allowing you to change models, colours and layouts without starting from scratch.

REAL-LIFE IMAGES IN MINUTES

Transport your customers into their dream bathrooms instantly, with realistic 3D images ready in minutes. Lead them through a virtual room that lets them explore their new bathroom and make changes on the go, so that you can get their commitment faster.

ACCURATE CATALOGUES

Design knowing that what you create will be how it will look in real-life. Catalogue data is updated every day, so that dimensions and appearance are exactly as you will see them when they get installed. Our data experts' close relationships with manufacturers ensures accuracy, so that you can deliver on the dream bathrooms you design.

DETAILED PLANNING

Make planning easier with automated scaled, annotated and branded 2D plans that come complete with elevations and elements listed for your installers. All of these are created in the background as you work, so they're ready as soon as you're finished.

Do we have your brands?

We have the widest selections brands in the industry.
Find yours on our catalogue directory: compusoftgroup.com/bathroom-brands

Why Innoplus stands apart

1. DATA ACCURACY

Exceptional data quality is at the core of Innoplus. You can find your brands from one of the largest catalogue databases in the market, constantly maintained by a team of data experts. Everything from sanitaryware to tiles and fixtures can be found from a range of different suppliers, enabling you to create beautiful designs in exact detail. Thanks to our data experts, you can have confidence knowing that it's up-to-date, 100% accurate and enriched with images, links and details that make your life – and your sales – easier.

2. SUPPORT BY LOCAL EXPERTS

You will receive full training right from the start, so that you can get the most out of your software. Local support is always available in your own language, with experts in the software able to solve your queries in just one call.

3. EASE OF USE

The speed with which you can learn to create accurate designs is the best in the market, so that you can spend more time with clients and less time figuring out how to use the software.

Innoplus

“We’re twice as busy as we were before as we can get designs to customers more quickly and respond to design changes faster.”

JORDAN LIDDINGTON, LYDNEY BATHROOMS

“Innoplus speeds up the number of designs and quotes we can get out, increasing our potential for growing our business.”

STEVE MILLS, C.P. HART
